

First Alert: MMP Issues

Sent to all State Coordinators on 1-4-2021

Event

Issue:

It has been brought to our attention there is an issue with MMP.

Details

Background:

Not only can you not start a plan with a 2021 start date, if a file is saved in 2021, MMP will not reopen this file.

Impact

How this affects you:

Do not save a file in MMP until there is more guidance from the national office. Unfortunately, this means if you were working on plans in December 2020...you should pause on these plans...until further notice.

Action Required

What do you need to do?

Unfortunately, this means if you were working on plans in December 2020...you should pause on these plans...until further notice. We are going to generate a list of TSPs certified for related CAPs and Categories and send them an email with this alert and subsequent updates as they become available.
