

# TECHNICAL SERVICE PROVIDER NETWORK MAKING CONSERVATION A PRIORITY

Technical Service Provider TSP Training Course Registration

**November 13-15, 2019**

**Murfreesboro, TN**

*Technical guidance on CAP 102 (CAP104), CAP 106, and CAP 138 (CAP114)*

This initiative will focus on Third-Party plans written by TSP's to arrive at consistency, efficiency and clarity. These issues will continue as long as communication between local NRCS staff, farmers, and TSP's improves. One of our primary goals of this training course is to discuss and recommend ways to improve our output products. This course will provide a forum for networking, steps for us to take to improve, and most of all, upgrade our approach to communication.

8:30am – 4:00pm
